Logan Coning // Web Developer

1018 E. Canal St

Troy, OH 45373

Phone: (937) 703-8005 | Email: coninglogan@gmail.com

Passionate, creative, and hard-working. This dances in my head when asked to summarize myself as an individual and especially as a professional Web Developer. My younger version wanted to be a Lieutenant for the U.S. Navy Blue Angels, but when I discovered the power and reach of computers and programming, it sparked my imagination and unlocked the door into the world of tech. Even though this was the eventual direction to go with my career, I still was fortunate to achieve my goal of becoming a pilot by age 22.

#Skills

Front-End Languages	Source Control	Frameworks/Tools	Soft Skills
JavaScript ES6 / jQuery	Git	Bootstrap	Terrific communicator
CSS / SASS / LESS	Github	VS Code	Team player
HTML5		Slack	Adaptable & empathetic

#Project Experience

Web App Dashboard

- Replicate and hand-code complete web application dashboard from the ground up
- Utilized inline SVG technique for scalable and responsive imagery and instantaneous load times
- Simulated responsive charting and data analytics with JavaScript
- Scripted rules for form entries to ensure valid submission

Employee Directory

- Interact with public API using fetch and JavaScript promises
- Parse API data into JSON and append fictional stats into webpage
- Manipulate CSS with JavaScript to show and hide details in a modal overlay

Personal Portfolio

- Design and code a personal web page showcasing programming skills
- Built experience with project deployment and domains, hosting, and DNS
- Included submission form that collects and stores user-supplied data

Review my website for more projects and details!
